MEMORANDUM

TO : Assistant for Public Affairs, 1 F 04 Hqs
COPY : Legislative Counsel, 7 D 49 Hqs
FROM :
SUBJECT : Legislative Request

1. In a conversation yesterday with former Congressman Alfred E. Sieminski, (R., N.J.,) I referred to the letter from Senator Inouye to the Director forwarding a copy of his report to the Senate on the work of the Select Committee, which I had seen posted on the first floor bulletin board.

2. Sieminski, who is retired and describes himself as now engaged in "writing," said he would appreciate having either a copy of the report or an indication of where he could find it in the Congressional Record. I said I would pass his request to our Public Affairs office. His current address is

Alfred D. Sieminski

3. The conversation had centered on Sieminski's sarcastic expression of "hope that by the turn of the century" the American people would finally realize how vital intelligence is and wonder how they could have permitted the attacks on it during the Seventies. He said more should be said and written at this time to make this obvious, and he proposed to do so. I then mentioned the Inouye report and commented I had not seen much if any of it in the newspapers.
